Blue Coral

Blue Coral Product X

Blue Coral's Product X is designed to restore the original shine to all automotive finishes. Product X contains cleaners and polishing agents that work to remove or fill in surface scratches enhancing the shine. It also works to eliminate swirl marks and correct slight paint problems while creating a deep luster. Safe for use on clear coats and all modern finishes.

Blue Coral Revive-It

Blue Coral's Revive-It DB one-step wax is made from carnauba wax and has been designed as a premium, one-step painted surface cleaner, polish and sealer wax. This product removes light to medium oxidation utilizing a rotary buffer, a foam pad, or a polishing pad. It will polish the painted surface to a mirror like shine while providing wax protection. Safe for clear coats and all modern finishes.

Blue Coral Leather Protector

Blue Coral's Leather Protector is the perfect choice for conditioning, protecting, and beautifying leather and vinyl interiors, seats, dashboards, soft tops, wood grain, and rubber. Imparts mild gloss while restoring that new car look.

Sealtek-Acr

Sealtek ACR contains reactive silicones that provide high gloss and long lasting protection. Designed to stand up to all weather conditions and detergent washes.
